# How to find your soul mate within a year

## Concept

You want to find the soul mate here in Japan whom you could marry. Even if you know that using an agency in Japan is a very common practice, it is likely that you hesitate to resort to this formula for lack of knowledge, for not mastering the language, or for some other reason.

France Nippon Service, relying on its Japanese agency "Demain", through its tools and actions, offers you, if you are motivated, to work towards enabling you to have your wedding in less than a year.

## Our tools, Our actions

### Access to the Main Japanese Arranged Marriage Networks

Our members have access to the IBJ (Confederation of Japanese Marriage Agencies), NNR (Confederation of Japanese Matchmakers), BIU (Bridal Japan Confederation), and Ryoen-net ("Good Bond" Network) networks to choose partners to meet.

### Arrangement of meetings, coaching, support

Proposals of matched partners and organization of individual and multiple meetings, permanent access (phone, email, appointment) to advice / coaching before and after the meetings. Accompanied of a bilingual coach possible during meetings (paid option)

## International aspect

### "Demain" fully engaged internationally

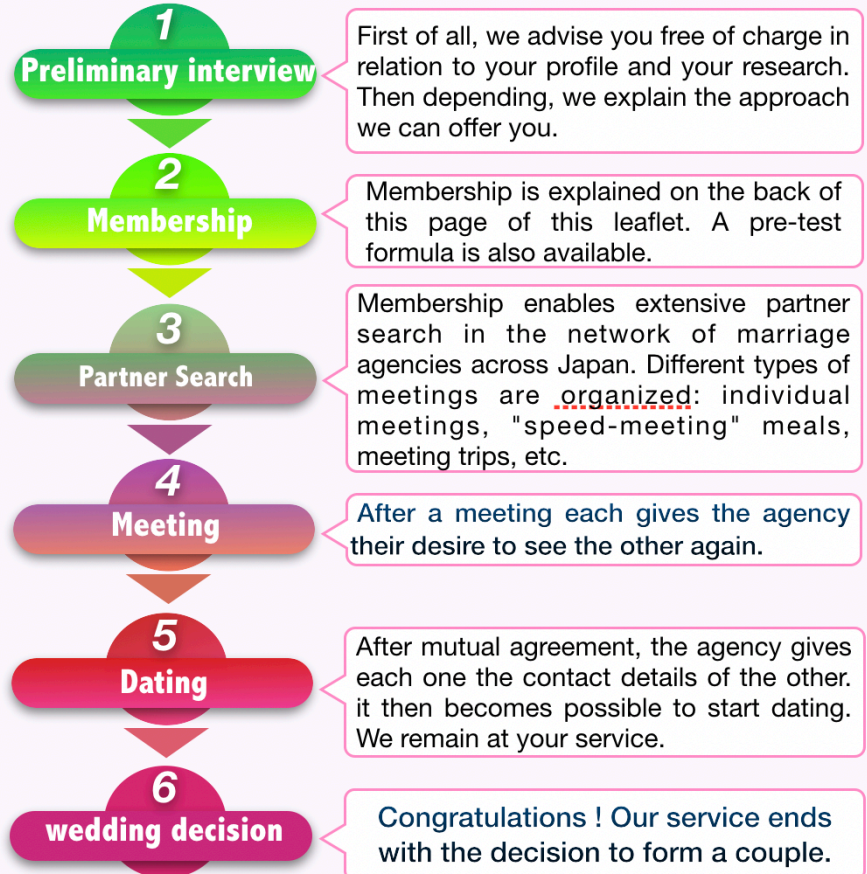

The attraction of marrying a non-Japanese has especially increased in recent years in Japan.

The manager of "Demain" in Tokyo, with extensive experience in marriage activity on a global scale, advises and coaches Japanese women and men toward an international marriage.

### France Nippon Service human relations facilitator

Serving the matrimonial activities of France nippon service, a Franco-Japanese couple committed and experienced in the different facets of relations between men and women.

## Process Flow

## Our trial formula for non-Japanese people

As a non-Japanese, You might have a bit of apprehension to engage in a dating process through a Japanese marriage agency, so we suggest that you first try a first meeting without any commitments.

Concretely, even before joining, by simply providing us with the information necessary for membership, we suggest you organize a first meeting by paying only 10.000 Yen for the preparation and support, which will then be deductible from the membership amount.
